"I came to Macquarie because it is so advanced in terms of the education environment. I could have gone to university in the United States, but the facilities here are better and there is a welcoming atmosphere."

Ellie Huynh

Bachelor of Commerce – Professional Accounting and
Bachelor of Applied Finance student from Vietnam

There are many reasons why a Macquarie University degree is a smart investment for your future.

Macquarie has an international reputation for excellence in teaching, research and innovation. As an advanced research institution with strong links to government, industry and the community, Macquarie attracts academics at the cutting edge of their disciplines.

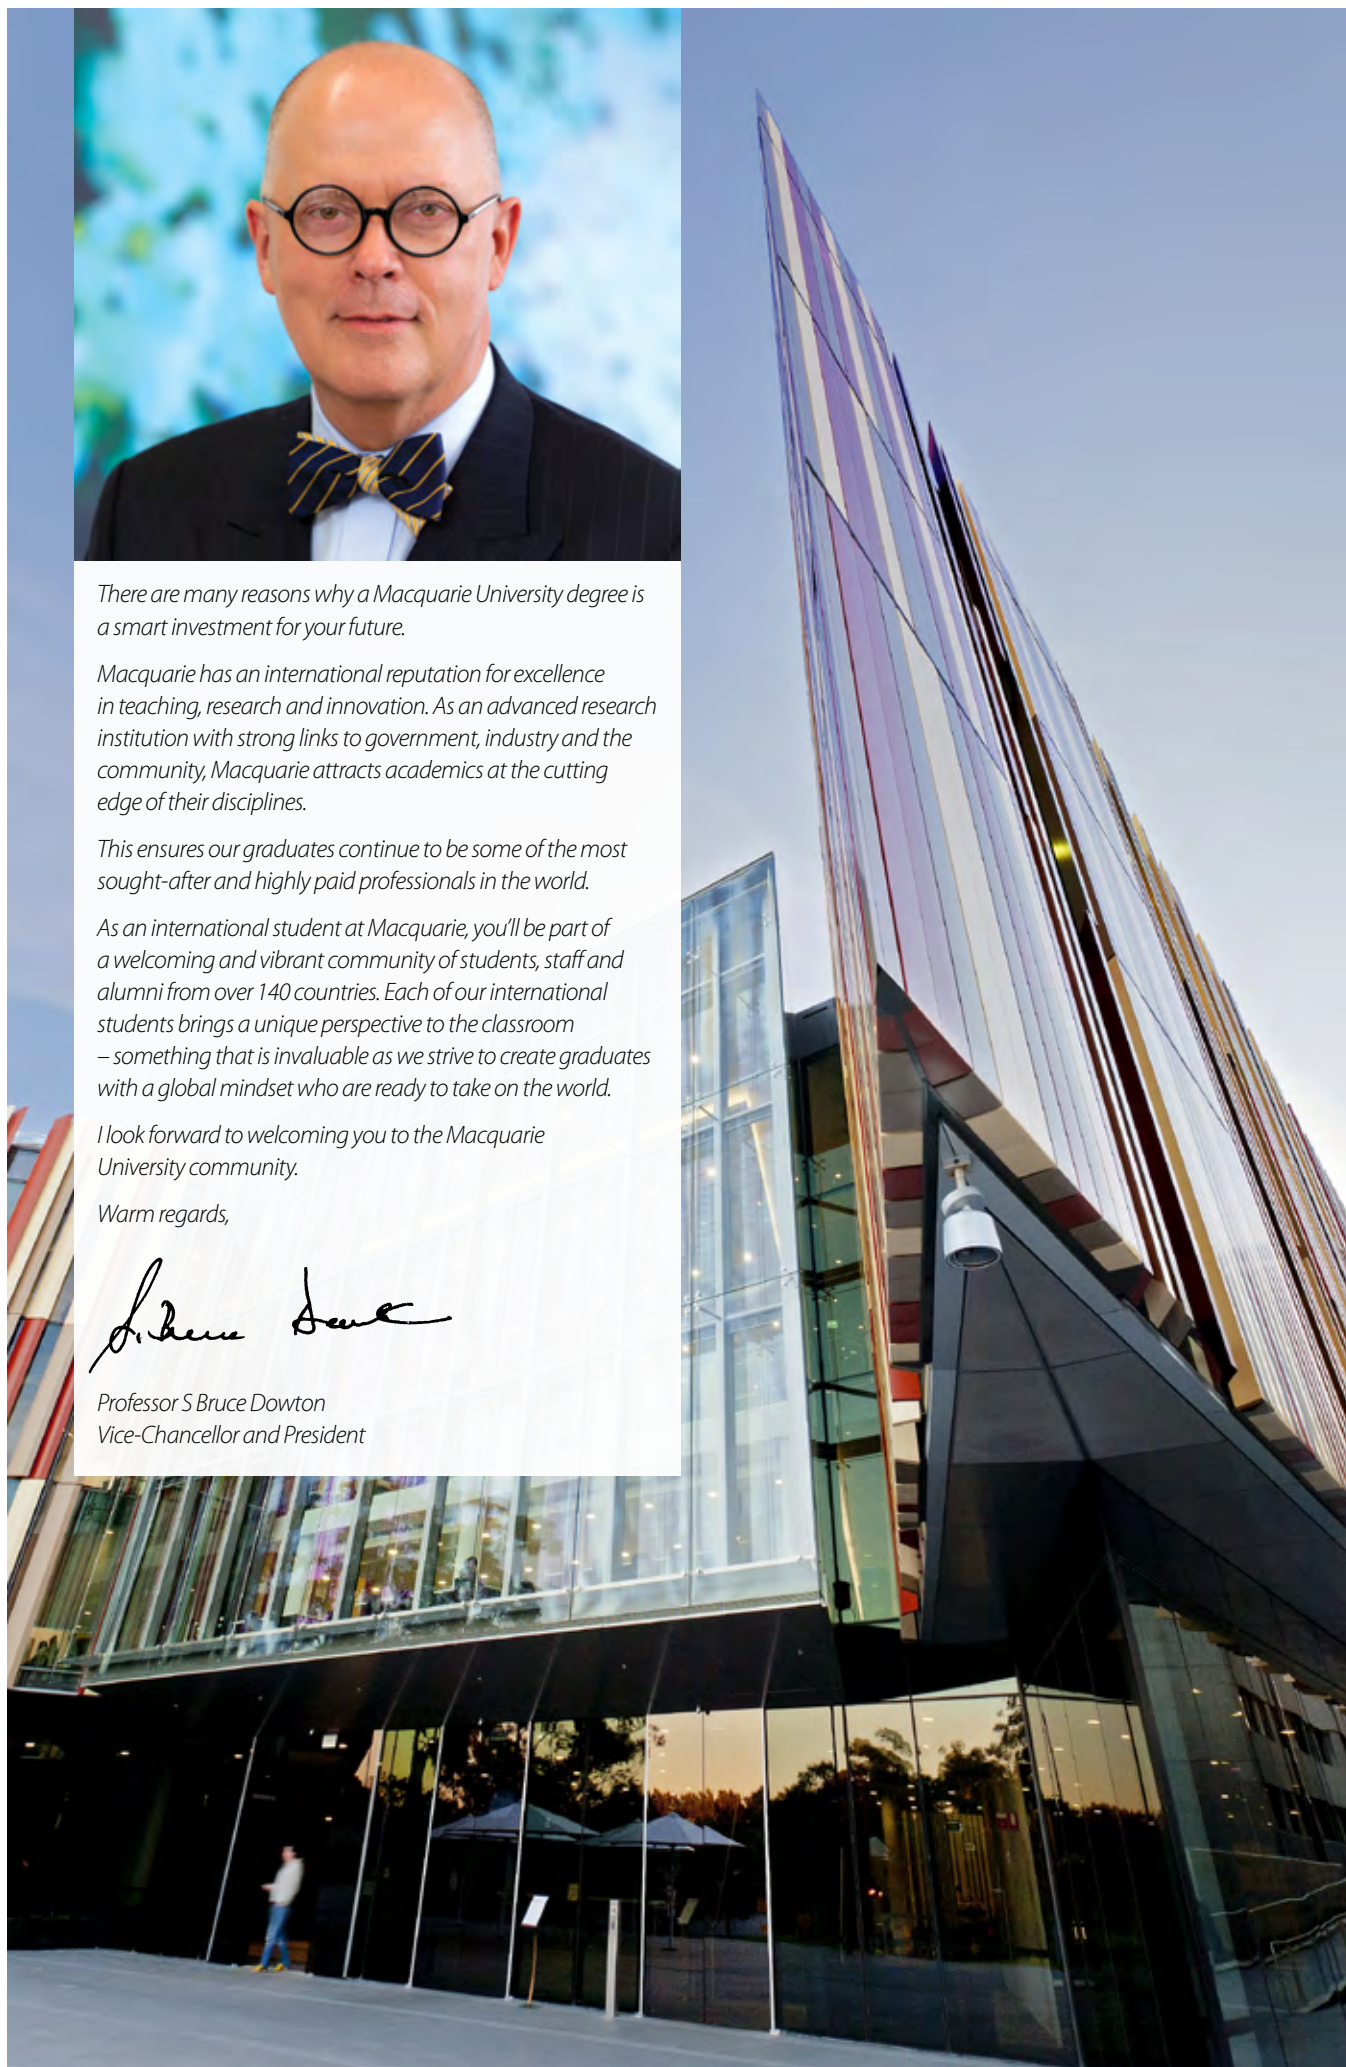

This ensures our graduates continue to be some of the most sought-after and highly paid professionals in the world.

As an international student at Macquarie, you'll be part of a welcoming and vibrant community of students, staff and alumni from over 140 countries. Each of our international students brings a unique perspective to the classroom – something that is invaluable as we strive to create graduates with a global mindset who are ready to take on the world.

I look forward to welcoming you to the Macquarie University community.

Warm regards,

*Professor S Bruce Downton
Vice-Chancellor and President*

"Which MBA?", 2013

Ranked 34 among top 50 universities under 50 years old
Times Higher Education
World University Rankings 2014

Why Australia?

With its world-class education system, Australia is the third most popular destination for international students in the world, with more than 2.5 million of our international alumni making an impact on the world.

Although it has a relatively small population of 23.4 million, Australia is known for innovation. The country has produced 15 Nobel laureates and millions of people around the world rely on Australian discoveries like ultrasound and the cervical cancer vaccine. The bionic ear, a revolutionary Australian invention, is produced by Cochlear Ltd, which has its headquarters right on the Macquarie University campus.

Quality of life

From the coral gardens of the Great Barrier Reef to the red desert heart of the continent, Australia's natural wonders attract thousands of tourists each year. While you may associate Australia with its koalas and kangaroos, most people live in thriving, modern cities along the east coast and enjoy one of the highest standards of living in the world.

Australia is a dynamic country with a stable democratic government. For students it offers outstanding education in a secure environment with a relatively low crime rate and high standards of health care.

First inhabited by Indigenous people around 40,000 years ago, Australia has attracted immigrants from more than 200 countries. Wherever you come from, you are likely to find people from your country who have made their home 'Down Under'.

Benefit from a streamlined visa

Macquarie University participates in the Australian Government's streamlined student visa processing system, available to only the highest quality education providers. This means students studying at Macquarie will generally have to produce fewer documents when applying for a visa, and can generally expect their visa processing times to be greatly reduced.

Legal protection for international students

The Education Services for Overseas Students' (ESOS) legal framework protects the interests of international students coming to Australia on a student visa. It sets out standards, provides clear guidance on roles and responsibilities for all education institutions and offers tuition protection for international students.

aei.gov.au/regulatory-information/pages/regulatoryinformation.aspx

Why Sydney?

Ranked fourth in the QS Best Student Cities in the world for 2014, Sydney is a dynamic, multicultural and friendly destination for university students.

Sydney is Australia's economic and financial hub and has been ranked one of the 10 most liveable cities on the planet. When it comes to security, Sydney was ranked in the top 25 safest cities in the world in the Mercer Quality of Life Index.

The oldest city in Australia, Sydney is also the Asia-Pacific headquarters for 60 per cent of international companies and offers excellent opportunities for employment after graduation.

Helping you make the move to Sydney

At Macquarie, we want to make your move to Sydney easy. That is why we offer our new international students free airport pick-up and a full accommodation service. Our orientation week (O week) will give you a chance to settle in and make new friends before classes start.

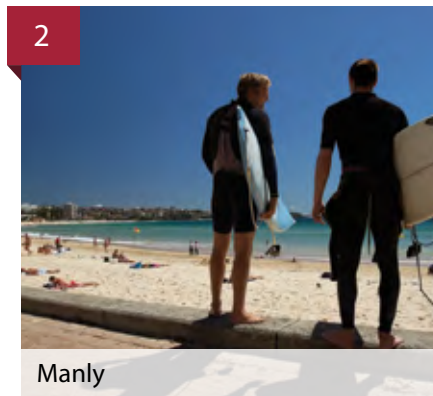

Sydney's attractions

- Iconic Sydney Opera House
- Around 70 beaches, including the world famous Bondi Beach
- Temperate climate – warm summers and cool winters
- Sydney Harbour, ideal for kayaking and sightseeing
- Culturally diverse neighbourhoods and intimate inner-city suburbs
- Excellent food and wine
- Great arts and cultural experiences, including free outdoor concerts
- Huge range of sports and outdoor activities
- Modern shops and stylish galleries
- Nearby World Heritage-listed Blue Mountains.

Transport to Macquarie

Macquarie students enjoy easy public transport links.

Commute by train or bus

Our University is the first in Australia to have its own train station. Every 15 minutes a train service runs to and from the city centre. More than 20 bus services run to the University from the city and suburbs.

Ride a bike

Enjoy an easy ride to campus on dedicated bike lanes. On campus we have bike racks, secure undercover bike hubs, bike repair stations and offer free cycling skills training.

Commute by car

There is easy car access from nearby motorways and good parking on campus. An annual parking sticker entitles you to unlimited use of parking facilities or pay casual hourly rates.

Travel discounts

International students can purchase selected public transport tickets at a discounted price.

Environment and sustainability

Set in extensive park-like grounds amid a forest of trees, Macquarie University has a strong sustainability focus.

Among environmental awards we have won is the 2012 large business category of the Green Lifestyles Award. Our vision for sustainability is to be ecologically sound, socially just, and economically viable in all our activities.

Energy efficiency

Our trigeneration plant uses natural gas to provide electricity for things like airconditioning. We also use solar power, geothermal energy and efficient lighting fixtures.

Waste

All waste (garbage) is sent to a resource recovery park where recyclable items are recovered while organic waste is converted into biogas for renewable electricity.

Water saving

We are the first education institution to have achieved four stars in Sydney Water's Every Drop Counts business program.

Fair Trade

Macquarie became Fair Trade accredited in 2009.

Campus facilities

Macquarie University Library

With investment of more than AUD \$1 billion in facilities and infrastructure, you have access to the best environment for learning, research and recreation.

Macquarie University Library

Voted Australia's favourite university library in 2014, this is a versatile learning and research space. Set under a green roof, it features group and quiet study areas, computers, printers, presentation practice pods and a café. Robotic cranes retrieve your books.

Media Hub

At our professional-standard Media Hub, students use industry-standard production areas for music, radio, film and digital media. It includes a sprung dance floor and blue screen technology.

IT facilities and wi-fi

There are 1300 wireless access points covering every floor of every building, including the library, Campus Hub and MUSE. So wherever you go on campus you will stay connected.

Digital laboratories

Fitted with the latest digital technology, our main science teaching laboratories provide a highly interactive learning environment. Each student has access to a networked computer, digital camera and microscope.

Media Hub

MUSE

MUSE – Macquarie University Spatial Experience – is a flexible and creative social learning space. In this architect-designed area, you can relax on a bean bag in a lounge area, study quietly in a cubicle or brainstorm in a meeting room with fellow students. Staff at Student Connect enquiry service in MUSE can assist you with accessing coursework information, printing transcripts, submitting administration forms, applying for travel concessions and other tasks.

Macquarie University Hospital and Clinic

As Australia's only private hospital on a university campus, this facility has set new benchmarks in health care. A world leader in neurosurgery, it houses the country's only gamma knife, as well as other high-tech equipment found nowhere else in Australia. The clinic provides a free medical service for international students.

Australian School of Advanced Medicine

The Australian School of Advanced Medicine (ASAM) brings together world-class clinicians, researchers and medical educators to create an innovative training program with a focus on future trends in medicine. It has Concentrations of Research Excellence (CORE) in neuroscience, vascular science and surgery.

Australian Hearing Hub

At the Australian Hearing Hub, Macquarie University brings together some of the country's best researchers and service providers to advance research, education and innovation into hearing and language disorders.

Macquarie Shopping Centre

Right across the road from the campus is Macquarie Shopping Centre, with more than 300 shops, including supermarkets, department and fashion stores, pharmacies, food courts, cinemas, banks and an ice rink.

Accommodation

Macquarie University Village

Robert Menzies College

New students need to organise accommodation well before arriving in Australia. The team at Macquarie Accommodation Services can advise you on the most suitable housing options to suit your needs – everything from living in a fully catered residence to homestays with Australian families.

All residences house both male and female students. However, you have the option of selecting female-only or male-only accommodation in the self-catered apartments on the campus. In the dormitories, Dunmore Lang College has one floor reserved for women only and Robert Menzies College has single-sex floors.

The cost of housing varies according to the type of accommodation and location you want. It is also important to consider the cost of electricity, gas and water. Some accommodation options include these expenses in the weekly or monthly rent.

The accommodation team can help you find a temporary place to stay if needed. New students can also book a free airport pick-up through the Accommodation Service.

mq.edu.au/accommodation/

Dayman Apartments

Dayman Apartments provides a safe, engaged and supportive community to live and learn in. Choose from a range of apartments. Only a short walk to campus, Dayman Apartments also offers high-speed internet, quality common areas and a quiet study environment.

Dunmore Lang College

Dunmore Lang College is a residential college on campus that offers a vibrant, welcoming and safe community with excellent academic, pastoral and personal support to all students. It offers a range of scholarships and promotes an active social and sporting program. Meals are fully catered.

Iglu Chatswood

Only a 13-minute train ride from Macquarie, Iglu Chatswood offers the flexibility of living off campus, along with airconditioning and ensuite in all rooms, high-speed internet, social and academic support, great student events and much more.

Macquarie Apartments

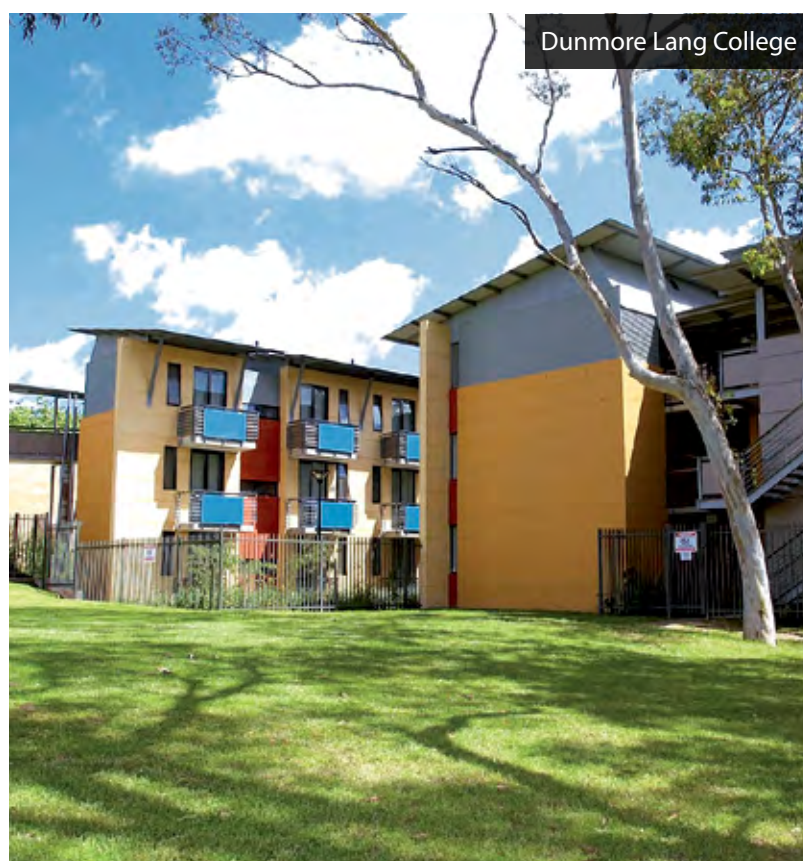

Prefer independent living? Macquarie Apartments provides single or shared accommodation within easy walking distance of Macquarie. All apartments are fully furnished, and apartment complexes are located in Macquarie Parklands and Herring Road.

Macquarie University Village

Macquarie University Village offers independent, apartment-style living, 24-hour security and great on-site facilities. Be part of a community of 900 students from all over the world. The village's residential life program will help you meet new people, support your studies and develop life skills.

Robert Menzies College

Robert Menzies College is an all-inclusive college with strong academic and pastoral support. It offers both self-catered and fully catered accommodation and includes private, fully furnished study bedrooms with shared or private bathrooms.

Dunmore Lang College

Iglu Chatswood

Private accommodation

The Macquarie private accommodation database provides details of many properties available for rent near campus. Rather than rely on photographs, it is best to visit any private accommodation and ensure it meets your needs before signing a rental agreement. Private rentals require a refundable deposit.

Homestays

If you prefer to experience life with an Australian family, why not try a homestay? Live with a family, where you will be provided with your own bedroom, meals, and a quiet place to study. Homestay providers are not endorsed by Macquarie University.

Table 1: Student accommodation options and costs

Name	Location	Type	Meals	Rental per week in Australian dollars – 2014 figures. Rates for 2015 to be announced.
ON CAMPUS				
Herring Road Apartments	Next to train station	University apartments	Self-catering	From \$140 for twin-share room with shared bathroom From \$210 for single room with shared bathroom
Dunmore Lang College	Next to train station	Dormitory	Fully catered	From \$429 for a room with all meals included
Robert Menzies College	Next to train station	Dormitory	Fully catered, semi-catered or self-catering options	From \$427 for a room with all meals included From \$296 for a self-catering room
OFF CAMPUS				
Macquarie University Village	Next to the campus (10–15 minute walk to centre of campus)	Apartments for students only	Self-catering	From \$360 for one-bedroom apartment From \$305 for single room in two-bedroom apartment From \$237 for single room in five-bedroom apartment From \$192 for twin share room in five-bedroom apartment
Dayman Apartments	15–20 minute walk from campus	University apartments	Self-catering	From \$269 for single room with shared bathroom From \$359 for studio
Macquarie Parklands	Next to campus (10-minute walk to centre of campus)	University apartments	Self-catering	From \$140 for twin share with shared bathroom From \$210 for single room with shared bathroom
Iglu Chatswood	Chatswood (13 minutes on the train direct)	Apartments for students only	Self-catering	From \$429 for studio From \$359 for single room in four-bedroom apartment From \$339 for single room in five-bedroom apartment
Private accommodation	Various suburbs	Private apartments, houses, share accommodation	Fully catered and self-catering options	\$150–\$400*
Homestay	Various suburbs	Stay in family homes	Partly catered – usually breakfast and dinner	\$240–\$360 per week, plus application fees

*This is a guide only.

Student experience

From your first day as an international student at Macquarie University, you will be warmly welcomed into our student community.

Our campus comes complete with shops, cafés, banks, bar, pharmacy, medical clinic, private hospital, counselling services, child care centres and on-campus wi-fi. With everything at your fingertips, there's no stress fitting things in around your lectures.

Diversity

Macquarie is a vibrant and diverse community, with students and staff from more than 100 different countries. Over 50 languages are spoken by our students. We celebrate the diversity of culture, and through our Equity and Diversity Unit make sure everyone has an equal opportunity to participate in university life.

Student groups

One of the best ways to make friends at university is to join student groups. There are more than 140 groups and clubs to choose from, ranging from film, drama, dance and sporting clubs to clubs with a cultural, religious or political focus.

International orientation

Our international student orientation program provides you with information on living and studying in Sydney and how the University works. In compulsory sessions, experts provide you with key information about things like student visas, course enrolments and finding work while studying. Optional activities include a barbecue and day trips to Sydney attractions.

Sporting activities

Practise your chosen sport or learn a new activity in some of the best sporting facilities of any university in the country. Our Sport and Aquatic Centre features a state-of-the-art health club with touch screen technology, as well as heated indoor and outdoor swimming pools, basketball, squash and other courts, and a martial arts area and gymnasium.

Other sports facilities include football and soccer fields, plus grass, hard and clay tennis courts that were built in partnership with Tennis Australia. In 2013, Macquarie University Sport received a Gold Quality Award from Fitness Australia. Several professional Australian sports teams train here and our fields have been used by international teams, including the New Zealand All Blacks rugby union team.

Campus Hub

Located in the heart of the University, the Campus Hub is a great venue to eat and relax with friends. The food court offers cuisines ranging from Asian and Mexican to contemporary Australian. You can play pool at Ubar, buy books or stationery from MacShop, go to a hairdresser, book a flight or get cash from the bank.

Food on campus

There are more than 25 food outlets around the campus that cater for all food preferences. Coffee lovers can choose from around 15 cafés or kiosks serving top quality coffee. Students who prefer to bring their own food can heat their meals in microwave ovens in the Campus Hub.

Sport and Aquatic Centre

Campus food court

Globe café

"Macquarie has a great mix of academic and extracurricular activities. There were day trips and events for international students... not to forget the all-famous O week, during which you get to make new friends and discover more about clubs and societies on campus."

Melissa Gojer
Bachelor of Commerce in Accounting
student from India

Support services

Australian university life is exciting, but you may need some time to adapt. To assist you, Macquarie offers a range of resources and support services.

Your friendly support team

Our Student Advocacy and Support Services team can assist you with a wide range of matters including visa compliance, welfare issues and support service referrals. Once on campus you can visit the Student Advocacy and Support Services desk in the Lincoln building for personal assistance during business hours, or contact your adviser by email.

If you need help or are worried about something, Macquarie University also has a 24-hour student assistance helpline for all enrolled students.

Religion and faith support

Macquarie has one of the most diverse student communities of any Australian university and we respect and support students of all faiths and religions.

Our students are supported by around 15 chaplains – religious or spiritual leaders appointed by outside organisations with the approval of the University. Multi-faith prayer rooms are located on campus with facilities for men and women.

The University has a range of religious clubs and there are also different places of worship close to the campus.

Academic and language assistance

We provide a range of free resources, workshops and support groups to help you achieve your best results. These include:

- the **Numeracy Centre**, which offers help with the maths or statistics components of courses.
- the **Learning Skills Unit**, which provides academic skills programs on topics such as exam strategies and referencing.
- **Peer-Assisted Learning (PAL)** groups, which focus on specific subjects and are led by trained students, who have excelled in that subject. Attending a PAL group can help you better understand course content.
- **conversation groups**, which enable you to practise your spoken English in a relaxed social setting.

“Multiculturalism is one of the greatest things that Macquarie has exposed me to. I believe it is a privilege to be seated in the same room with classmates and professors from all over the world.”

Renata Zilli Montero

Mexican postgraduate student, studying Master of International Relations with Master of International Trade and Commerce Law

Health and wellbeing

Campus Wellbeing brings together a suite of health and wellbeing services that you can take advantage of at any time during your studies. Our highly qualified staff will work with you to create a comprehensive plan to meet your needs.

- **Counselling and Psychological Services** offers free, confidential counselling. They deal with issues of concern to you, including emotional, relationship or personal difficulties.
- The **Medical Service** provides a comprehensive range of medical services, most of which are covered by your international student health insurance.
- The **Welfare Service** provides free, confidential support, information and referral for welfare, health and wellbeing matters.
- The **Disability Service** provides support and assistance to students with a disability or health condition to enable them to have equal opportunity to participate and flourish.

Peer support

Our peer support program, Mentors@Macquarie, is one of the longest running in Australia. The mentors are student volunteers who assist first-year students with their transition into university life.

Your experienced student mentor will offer you advice on learning at university, help you find your way around campus and give you tips and tricks on studying and settling in.

Child care

Students can apply to have babies or children cared for at one of our two early childhood education and care centres. They cater for children aged six weeks to five years old.

Safety on campus

Student safety and wellbeing is one of our top priorities. As part of orientation you will receive information on how to ensure your personal safety and details of our 24-hour security service, student assistance and enquiry line. Help call points across campus have direct lines to our security service.

At night, we operate a free shuttle bus for staff and students during academic sessions. The shuttle buses cover the entire campus, including car parks, library, bus and train interchanges and student housing. We look after you 24 hours a day.

mq.edu.au/international-safety

Outstanding research and teaching

When you study at our world-class University you will learn from passionate teachers and researchers, such as climate science leader Professor Lesley Hughes, Big History founder Professor David Christian, and internationally respected marine scientist Professor Rob Harcourt.

Several outstanding academics have received awards for teaching excellence. In 2013, Professor John Croucher, Professor of Management at the Macquarie Graduate School of Management, received the Prime Minister's University Teacher of the Year award.

Research excellence

Macquarie University has great research strengths in the sciences, social sciences and professional disciplines. Our University conducts research driven by international collaboration and leads Australia in a range of research disciplines. This means we are able to offer students an excellent study environment.

Outstanding science achievement

In Excellence in Research for Australia (ERA) 2012, Macquarie achieved the maximum 5 rating – outstanding performance well above world standard – in earth sciences, environmental sciences and physical sciences. In total, 85 per cent of Macquarie's research activity was rated as performing at world standard or higher.

Over half of Macquarie's subject areas are ranked in the top 100 worldwide in the current QS World University Rankings by subject, with linguistics and psychology both in the top 50.

World-leading researchers

The University's Concentrations of Research Excellence (CORE) program, which centres on 18 high-performing research areas, recruited 90 top-class researchers.

Twenty three Macquarie researchers are in the top one per cent of researchers in the world (Essential Science Indicators 2013).

ARC Centres of Excellence

Macquarie is the host institution of, or has a major node in, five ARC Centres of Excellence. These are:

- Centre of Excellence for Core to Crust Fluid Systems
- Centre of Excellence in Cognition and its Disorders
- Centre for Engineered Quantum Systems
- Centre for Ultrahigh Bandwidth Devices for Optical Systems
- Centre of Excellence for Nanoscale Biophotonics (CNBP).

Innovation with industry partners

Because of our location in the centre of Australia's largest high-technology precinct, our higher degree research candidates have outstanding research and innovation opportunities with some of the world's leading organisations. Companies that we partner with include Cochlear Ltd, EMC, GlaxoSmithKline, Honeywell and Optus.

International research training partnerships

A major feature of our international program is our cotutelle and joint PhD arrangements. Macquarie partners with more than 108 universities in 29 countries.

Innovative learning

Macquarie provides an innovative learning experience that really engages you. Our excellent programs will broaden your thinking, take you on a journey of discovery and transform your life.

Our interdisciplinary degrees are developed with graduate outcomes in mind and are combined with real-world learning.

You will learn from inspiring teachers in a research-rich university that is recognised globally for academic excellence in key disciplines. Our cutting-edge technology ensures you benefit from top-quality academic learning on campus and online.

Add in the experience you get from our distinctive learning programs, such as PACE and the Global Leadership Program, and you will gain a powerful competitive edge.

Learning modes

Macquarie structures learning experiences to ensure you get the most from your degree. These range from lectures and seminars to fieldwork, practical work and industry-based placements.

Real-life flexibility

Our flexible learning options help you achieve a high-quality learning experience and find a balance between study, work and leisure. Most lectures are recorded and made available online.

In addition to our broad selection of undergraduate and postgraduate courses, there are options to study abroad, undertake research, complete an internship or study English at Macquarie.

"A Macquarie degree is not an end in itself. As well as preparing graduates for a successful career, each degree develops a global outlook and instils self-confidence and leadership skills to set students up for the challenges of 21st century life."

Professor Sherman Young
Pro Vice-Chancellor, (Learning, Teaching and Diversity)

PACE and Global Leadership Program

Macquarie is the only Australian university to offer the three Ps – PACE, People and Planet units – as part of your degree. These units connect you with the real world and are fully integrated into the curriculum.

PACE

PACE – Professional and Community Engagement – is a learning program through which you can connect with one of more than 900 partner organisations to gain real-life experience in preparation for work and life beyond university.

Doing PACE units counts for credit towards your bachelor degree. It helps you develop communication, leadership and professional skills as well as a greater understanding of the workplace environment.

PACE activities are available for undergraduates at an international, national and local level, and participation can include internships, work-integrated learning, field trips and community service. Some Macquarie graduates have gone on to work full-time for the companies where they did their PACE activities.

People and Planet units

People and Planet units are included in most undergraduate programs. You will learn about contemporary world issues and develop the capacity to become an engaged and ethical citizen.

People units offer a range of cultural and socially focused subjects that help you explore everything from dance and linguistics to philosophy. Planet units relate to the natural world and include units on sustainability, law, bioethics and astronomy.

This multidisciplinary approach to learning makes you more employable. Over 90 per cent of our graduates start their careers within six months of graduation.

Global Leadership Program

Our Global Leadership Program (GLP) can be undertaken alongside any degree. This extracurricular program enhances your study experience, develops your leadership and professional skills, and cross-cultural understanding.

On successful completion of the program you will receive a notation on your official Macquarie University transcript as well as reference letters, a certificate and a GLP-specific transcript. This adds practical skills and experience to your curriculum vitae.

Undergraduates can gain experiential credit for the program by:

- going on a student exchange
- doing an internship
- participating in an international event
- going on a PACE international volunteer experience.

Postgraduates attend think tanks on thought-provoking topics and choose a cross-cultural practicum, which might involve attending a GLP international symposium, volunteering or attending a conference.

To meet the GLP requirements, all students are also required to attend the annual distinguished speaker series.

The program is generously funded by the University, so most events are free. However, you may incur costs depending on which activity you choose to undertake for your undergraduate experiential credit or postgraduate cross-cultural practicum. Around 2500 students were involved in this program in 2013.

Scholarships

Macquarie University has one of the most generous scholarship programs in Australia. In 2014, Macquarie offered more than 190 scholarships to commencing international students from 41 countries.

Macquarie University scholarships

Vice-Chancellor's International Scholarships

The Vice-Chancellor's International Scholarship (VCIS) is a leadership program. VCIS recipients participate in leadership and mentoring workshops. The amounts for these scholarships vary across courses and countries.

mq.edu.au/macquarie-international-scholarship

Macquarie Graduate School of Management

The MGSM scholarships reflect our strong links with industry, the corporate sector and our alumni network.

mgsm.edu.au/mba-and-postgraduate-programs/scholarships

Higher degree research

Macquarie invests \$25 million in higher degree research scholarships annually. International Macquarie University Research Excellence Scholarships (iMQRES) are available for international candidates of high calibre. Co-funded iMQRES scholarships may also be available to cotutelle and joint PhD candidates.

hdr.mq.edu.au/information_about/scholarships

Australian government scholarships

The Australian government invests AUD \$200 million in international scholarships annually. These opportunities include:

Australia Awards

These prestigious international scholarships and fellowships are available to students from more than 50 countries in Asia-Pacific, Africa and the Middle East. australiaawards.gov.au

Australia Awards Endeavour Scholarships and Research Fellowships

These support students to undertake postgraduate study, research and executive development programs in Australia.

aei.gov.au/Scholarships-and-Fellowships/International-applicants/Pages/International-Applicants.aspx

International Postgraduate Research Scholarships

Funded by the government, these scholarships are awarded to international higher degree research students of very high calibre.

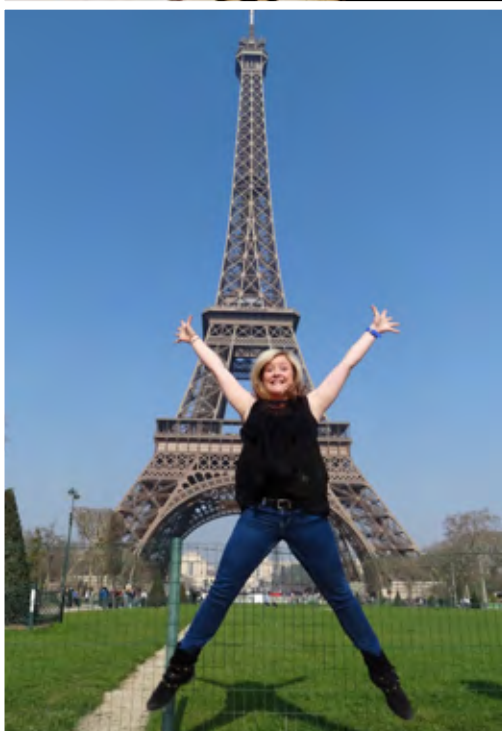

hdr.mq.edu.au/information_about/scholarships

External and home country scholarships

Macquarie encourages you to investigate scholarships offered by the government of your home country, private education foundations, multinational companies and other organisations.

hdr.mq.edu.au/information_about/scholarships

Macquarie Abroad

As a student at Macquarie University, you will have access to exchanges and other opportunities to enhance your international expertise.

Macquarie Abroad

Macquarie's international exchange program, Macquarie Abroad, involves more than 150 universities in 50 countries and is one of the most extensive in Australia. Study overseas for anything from a few weeks of vacation time to a full academic year. Our generous student mobility scholarships give you a great opportunity to travel and learn. You may choose courses you cannot do in Australia – like studying fine arts in Italy or marine biology in Fiji.

Overseas study can:

- make you more attractive to employers
- give you a real experience of how people live in other countries
- allow you to have adventures, make friends and travel.

The Macquarie Abroad office is in the Campus Hub, so after you arrive on campus, drop in to discuss your options.

Further your international experience

PACE International

An integral part of PACE and run in partnership with Australian Volunteers International (AVI), PACE International offers you a unique opportunity to do project work with community partners around the world. PACE grants are available to help you finance your experience.

Generally, you are placed with a non-government organisation (NGO) in a developing country to work with local partners doing things such as education, constructing classrooms, promoting health, advocacy, media or communications.

For example, around 50 students have travelled to Manila to work with children's rights organisation Bahay Tuluyan. Last year a dozen law students were selected to travel to Cambodia to work with partner organisations dealing with issues such as land rights.

Study abroad and student exchange

If you want to travel and experience what it is like to be a student in the extraordinary, cosmopolitan city of Sydney, you are invited to study at Macquarie for one or two semesters. You can come here as part of our exchange programs or as an independent study abroad student.

Participating in our student exchange or study abroad program is the experience of a lifetime and a chance to discover more about the world and Australia. Tailor your study program to suit your needs and receive full academic credit from your home university.

Study abroad

Study abroad students can apply individually to travel to Australia and study at Macquarie for one or two sessions. This option is available for international students who are not enrolled at one of our exchange partner universities. Study abroad students pay tuition fees to Macquarie University for the duration of their visit. You can also apply for this program through Macquarie's study abroad partners or agents.

Exchange program

Exchange students come to Macquarie University for one or two semesters as part of the exchange program with over 150 partner universities in more than 50 countries. Macquarie is also a member of the International Student Exchange Program (ISEP), which allows students from particular universities in the United States and some other countries to study at Australian universities; and the Australian-European Network (AEN), which enables students from member universities in 31 European countries to study at selected Australian universities.

You can be nominated by your home university to visit Australia for one or two sessions. In exchange, domestic Macquarie students study at your home university. As an exchange student you will pay fees to your home university.

Partner universities

Find out if your university is a Macquarie exchange partner or is listed on the ISEP or AEN websites.

1. Macquarie exchange partner universities

3. AEN member universities
aen-online.com/UNStudents

What you can study

See what areas of study are available online
mq.edu.au/international/study_abroad/areas_of_study

Facilities, services and support

Once you are enrolled, you will be able to use our outstanding facilities and enjoy the same high level of services and support provided to all international students. You can choose to join student clubs and societies, play competitive or social sport, and attend a range of campus events such as concerts and debates.

Fees

If you are a study abroad student, you are required to pay a fee in advance that includes tuition and compulsory administration fees. It does not include accommodation, books and other costs. For one session (six months) the fee is \$8500 for four subjects. This is a fixed fee for all disciplines.

If you are an exchange student from one of Macquarie University's exchange partners you do not need to pay any tuition fee to Macquarie University, as you will pay your standard fees at your home institution.

Launch your career

Our degrees open doors to careers in fields ranging from biotechnology to business, from robotics to law, and from politics to chiropractic.

From day one on campus, there are steps you can take to gain the skills and experience you need to build your résumé, and succeed in your chosen career.

Research career options

Research careers on our University and faculty websites, as well as searching other career, job and employer websites.

Expand your experience

Opportunities to expand your experience include volunteering, work experience, paid employment, participating in clubs and societies, going on exchange, and doing internships or cadetships.

Join CareerHub

The online CareerHub gives you access to job listings and has full details of career events, including employer talks and career fairs.

Use the Career and Employment Service

The Career and Employment Service can give you the information and skills to plan for your future career. The service will help you find jobs, review your résumé and polish your interview skills.

Do PACE units

PACE is a learning program that connects you with one of more than 900 partner organisations to gain real-life experience in preparation for work and life beyond university.

Internships

Internships offer you a safe, supportive way to get a taste of your future career and apply theoretical classroom knowledge in the workplace. They add diversity to your study program and develop essential, transferable skills, such as communication, teamwork and problem solving.

Undergraduate internships through PACE

Internships for undergraduate students are available through PACE. These range from internships with major companies such as GlaxoSmithKline and Microsoft, to internships for local government, community or not-for-profit organisations.

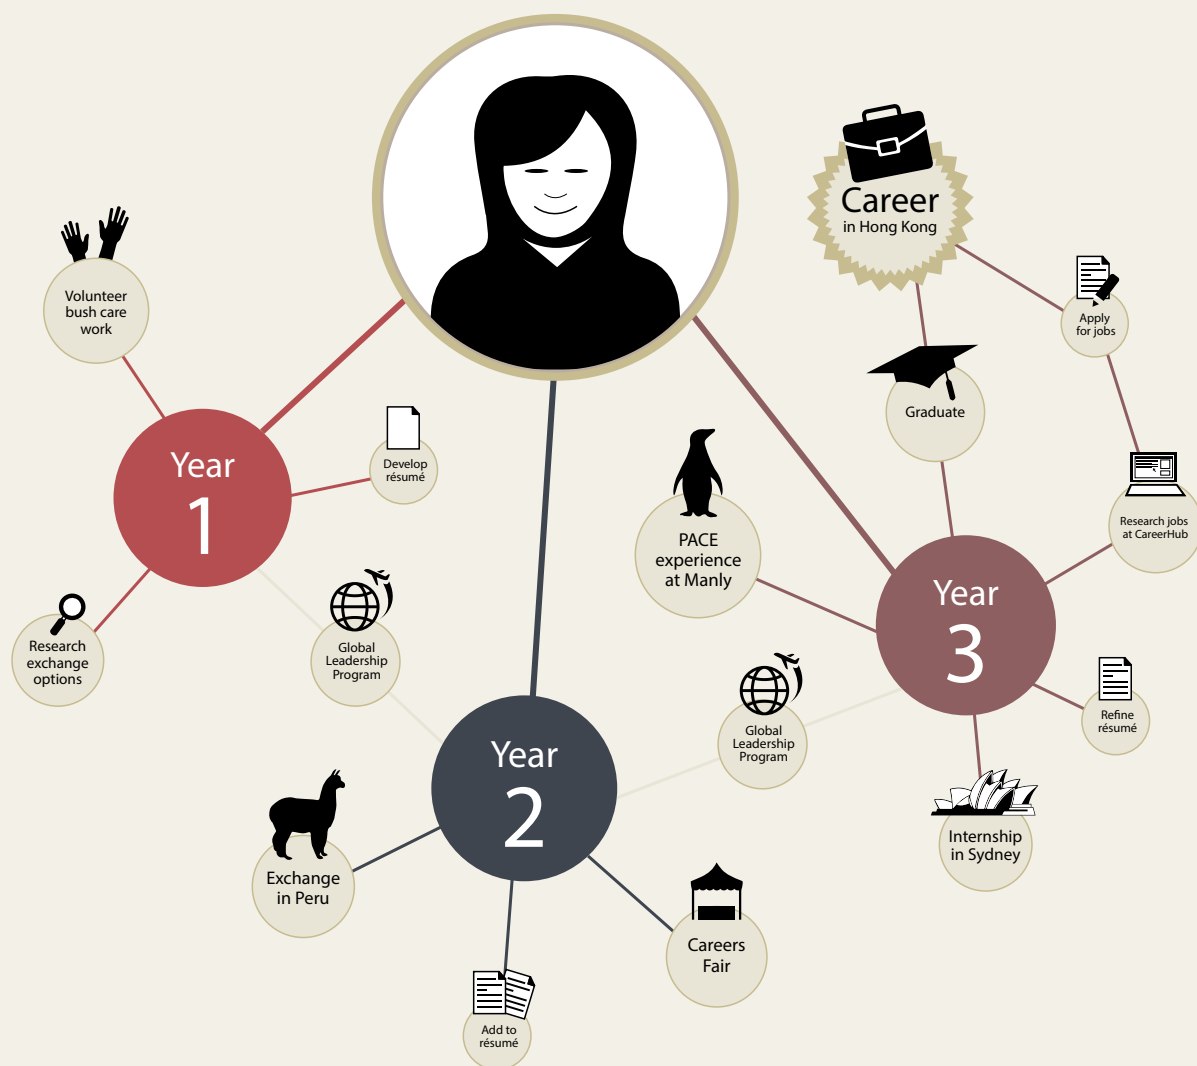

Postgraduate internships

Macquarie offers internships across all four faculties, providing a unique, multidisciplinary focus. For example, the Master of International Relations has offered limited, competitive internship placements with host organisations such as Amnesty International, the Australia China Business Council, the British Consulate and The Smith Family.

Faculty internships

Our faculties have developed a range of internships to enhance your personal and professional development.

Macquarie career plan leads to dream job

Kate,* an international student from China, comes to Macquarie to study a Bachelor of Environment. She has always been interested in sustainability but does not know what job to aim for when she graduates.

Year 1

Kate consults the Career and Employment Service for advice on possible careers and developing her résumé. She joins the Student Sustainability Network on campus and volunteers for 30 hours of bushcare work. Kate also signs up for the Global Leadership Program (GLP) and attends its symposia. She researches exchange options among Macquarie's 150 partner universities in 50 countries.

Year 2

Kate studies Session 1 at a university in Peru, where she learns more about sustainable development in that country. After returning to Macquarie, she attends the Careers Fair and researches different employers.

Year 3

In the summer vacation, before starting her third year, Kate does an internship at one of Sydney's local councils. She assists the council to develop a community sustainability strategy. In the first session, Kate completes her PACE experience at Manly Sea Life Sanctuary, caring for marine life and becoming a valued team member. Later Kate attends employer presentations on campus and applies for jobs via CareerHub.

After graduation

Kate's careful career planning from day one pays off when she lands a graduate sustainability consultant role for a global accounting firm in Hong Kong.

*Kate is a fictional character whose career plan is a composite of real Macquarie student experiences.

Connect with employers

The Career and Employment Service provides a supportive environment for our students to prepare for their future careers and for employers to access Macquarie graduates.

Finding a job

There are many ways to find a job. You should always research your potential job and employer before applying. Search for jobs online on CareerHub and other job websites.

Career fairs

Macquarie's biannual career fairs are a great way to explore your career options, build industry contacts and talk directly to a wide selection of employers about possible opportunities.

Graduate employment programs

Graduate employment programs are graduate roles that include training, support and development opportunities. They are generally offered by large organisations and government departments, with some offering rotations through different departments within the organisation.

Applying for jobs

Once you identify a job you are interested in applying for, the next step is preparing an application and going through the selection process. You can get advice on strengthening your résumé and cover letters as well as interview tips at the Career and Employment Service office.

Work requirements

If you want to work in Australia you will require a tax file number (TFN), which you apply for at the Australian Taxation Office.
ato.gov.au

You will also require a local bank account for your employer to deposit your pay.

Working while studying

If you are on a student visa, you are allowed to work for 20 hours a week (40 hours per fortnight) with unlimited hours during university breaks. To check student visa work conditions, visit the Department of Immigration and Border Protection website.
immi.gov.au

Working after graduation

The temporary graduate visa lets you live, study and work in Australia temporarily after you have finished your studies. The visa has two streams:

- 1. Graduate work stream** is for international students who have recently graduated with an eligible qualification on the Skilled Occupation List. It is granted for 18 months.
- 2. Post study work stream** is for international students who graduate from an Australian education provider regardless of their field of study. This is only available to students who applied for and were granted a student visa to Australia after 5 November 2011. A visa in this stream can be granted for periods ranging from two years for bachelor and masters degree graduates to four years for PhD graduates.

Industry and business partnerships

Macquarie students have the advantage of attending university in the heart of Australia's largest high-technology precinct. There are more than 300 companies on our doorstep.

The University's location and its relationships with industry and commerce enhance research. Our students also benefit from a superior learning environment, more internship opportunities, and greater exposure to the job market prior to graduation.

Macquarie University Research Park

Leading Australian and global companies are located at the seven-hectare Macquarie University Research Park and elsewhere on campus. Our tenants include Siemens, Panasonic, Procter & Gamble Australia, Telstra Corporation, Luxottica, EMC Holdings, Ciena Australia and Crown Castle International.

Cochlear Ltd

Macquarie is home to the global headquarters and principal manufacturing facilities of the world leader in implantable hearing solutions, Cochlear Ltd.

Corporate and industry partners

Our high-profile industry and corporate partners, many of which offer internships to Macquarie students, include AMP Capital, Beiersdorf Australia, EMC Corporation, Citigroup, Commonwealth Bank, CSIRO, Deloitte, GE, Google, Holocentric, Honeywell, Microsoft, Nielsen, Optus, Red Bull and Wesfarmers.

Other partner organisations include councils, local development organisations, government agencies and non-government and community-based organisations.

Some companies offer scholarships. The curriculum is enriched through guest lectures by industry partner representatives.

"One of the main pluses of Macquarie was its attractive campus and strategic location in Sydney's high-technology precinct. I got to conduct research in the topic that is close to my heart and then share my findings."

Jason Wan

Master of Information Technology graduate from Malaysia
Vice-Chancellor's Commendation for Academic Excellence 2013

What students and graduates say about us

"The highlight of my time at Macquarie was an internship I undertook at Microsoft, which has led to a full-time position. The internship was facilitated through the PACE program, which is unique to Macquarie."

Ronan Chander

Bachelor of Commerce, 2013
Audience Marketing Manager, Microsoft Australia

"My Macquarie degree was a great stepping stone for my professional career in Australia... it allowed me to develop my professional network early on. And through Macquarie's internship program I found a job with a communications company that led to my current role."

Franziska McCarthy

Master of Arts in International Communications, 2010
Marketing Communications Manager Australia, Cathay Pacific Airlines

"The population density is much lower in Sydney than in China, which leads to a lot of differences in the lifestyle. What I like most is the environment – the weather is beautiful and there are amazing natural views."

Zhuopeng Liu

Bachelor of Accounting and Bachelor of Commerce graduate,
Liu was one of the top 10 Asia-Pacific students
in the 2013 Bloomberg Aptitude Test Hall of Fame.

"Macquarie's reputation as a world-class, research-intensive university is what attracted me the most. Macquarie's teachers in this discipline are truly phenomenal."

Amit Bhattacharjee

Bachelor of Science with a major in Biomolecular Sciences,
Macquarie University International Scholarship recipient

Our outstanding alumni

Once you graduate from Macquarie, you will join the alumni community of over 150,000 graduates in more than 140 countries. Among outstanding international alumni are:

Alan Bai
Graduate Diploma in Accounting, 1997
Master of Applied Finance, 1998
Principal at China Renaissance Capital Investment, China

Professor Hoàng Văn Vân
Master of Applied Linguistics, 1994
PhD Linguistics
Dean of Graduate School of Vietnam National University

Alan Merten
Bachelor of Economics, 1986
Master of Business Administration, 1998
Director, Insurance Consulting, Asia-Pacific at Towers Watson, Singapore

Dr Moh Chong Tau
Master of Arts, 1997
President & CEO of Makino Asia, Singapore
Winner of Singapore's Public Service Medal, 2010

Holly Li
Master of Business Administration, 2003
Chief Executive Officer, Esprit, China

Rose Mwebaza
PhD (Law), 2007
Regional Climate Policy Specialist, United Nations Development Programme, Johannesburg, South Africa

Napoleon Perdis
Bachelor of Arts, 1991
Owner and Chief Executive Officer, Napoleon Perdis, Los Angeles

Sabrin Rahman
Bachelor of Commerce, 2007
Senior Manager, Corporate Sustainability, HSBC Bank Middle East United Arab Emirates

Rubab Raza
Bachelor of Medical Science, 2013
Technical Sales Consultant, Phenomenex, Sydney
First female Olympic swimmer from Pakistan

The Hon. Helen Sham-Ho, OAM
Bachelor of Legal Studies, 1986
Solicitor with Pancilegal, Sydney
First Chinese-born state parliamentarian in Australia

Jon Tse
Bachelor of Commerce (Accounting) Bachelor of Laws, 2011
Chief Financial Officer and Co-Founder of Zookal, Sydney

Jusuf Wibisana
Master of Economics, Accounting and Finance, 1990
PwC Partner, Indonesia

"Within a year of completing a Master of Applied Finance with Macquarie I was offered a role as a portfolio manager. It was a great achievement and I still use the knowledge I gained from Macquarie every day."

Calvin Thong
Portfolio manager at BlackRock in Tokyo
Malaysian alumnus

Our areas of study

Faculty of Arts

Media, creative arts and communications

Our programs are designed to keep you up-to-date with new and emerging media and industry practices while ensuring you have a strong understanding of traditional mass communication. You will learn from award-winning academics and experts and have access to industry-standard facilities. Our multi-million dollar media hub includes professional screen, radio and dance studios, state-of-the-art digital workstations for all production areas, a specially equipped screening theatre and the latest in digital production and editing tools. So immerse yourself in writing, dance, music, screen production, management, marketing, society and culture, communication, and interactive technology and games and prepare for a career in the new media landscape.

Career options include: advertising executive, corporate communications specialist, film, music, radio or television producer, journalist or public relations specialist, marketer, video game designer.

Society, history, languages and culture

Expand your horizons and see the bigger picture with our world-class degrees in society, history, languages and culture. Our ancient history programs are world-renowned, and we are the only university in Australia with a licence to do archaeological digs in Egypt's Nile Valley and offer a full study of Egyptology. Our acclaimed teachers include Professor David Christian, the pioneer of Big History. We also have one of the world's top 100 language departments, which offers a wide range of European and Asian languages. With expertise in politics and diplomacy, history, philosophy, sociology, English, international studies, anthropology, Indigenous studies and languages, our programs will take you into a world far beyond academia.

Career options include: archaeologist, anthropologist, diplomat, historian, museum curator, art consultant, social or market researcher, translator and interpreter.

Security and intelligence

The national and international security environment has been transformed over the past decade, leading to demand for highly skilled graduates in this field around the world. Our innovative programs combine theory with policy and practice to give you the tools for a career in policing, intelligence and the security sector. Taught by senior academics and leading industry professionals, our programs will also give you opportunities to build professional contacts with experts working both in Australia and internationally.

Career options include: criminologist, disaster management adviser, intelligence analyst, policy adviser, risk analyst, security consultant, state or federal police officer.

Macquarie Law School

Law

Law at Macquarie has been rated in the top eight in Australia by QS World University Rankings. As a pioneer of interdisciplinary law study in Australia, Macquarie prepares you to look beyond law as a function of rules and procedures. You will be challenged to think around problems and provide more innovative solutions – skills highly valued by employers. With the option to combine your law degree with other areas of study, you can open the way to a variety of careers.

Career options include: barrister or solicitor, diplomat, legal adviser in the health and community sector, legal adviser for environmental or media organisations, NGO adviser, public service or trade union representative.

Faculty of Business and Economics

Accounting and corporate governance

Accounting is the language of business and a vital tool for organisations to analyse reports and solve business problems. Accountants, auditors and risk managers are in demand worldwide, finding employment in all areas of commerce, in not-for-profit agencies and in government. Macquarie's expertise in this field ranges from financial and management reporting to risk, corporate governance, ethics, and information systems and development. Our accredited degrees give you depth and breadth of knowledge, as well as the skills to relate this knowledge to complex situations in the real world.

Career options include: accountant, auditor, business analyst, financial manager, merchant banker, stockbroker.

Applied finance and actuarial studies

The finance sector is dynamic and complex, and highly skilled graduates are in demand worldwide. Finance at Macquarie investigates three core areas: corporate finance, investments and financial markets, and their effect on the flow of funds within the economy and on the control of risk. Macquarie has a long and proud history in teaching actuarial studies and is recognised by the Actuaries Institute as a Centre of Excellence in actuarial education. Our actuarial studies program is the longest running of its kind in Australia and our graduates are highly sought after.

Career options include: financial or market analyst; funds or investment manager; life, general or health insurance specialist; merchant banker; risk analyst; stockbroker; superannuation consultant.

Business, economics and commerce

A business, economics or commerce degree from Macquarie counts for more in the business world. As a graduate in this field you will achieve a higher than average starting salary and be sought after by leading businesses across Australia and around the world. That's because Macquarie equips you with the skills that companies want. Our interdisciplinary approach gives you the chance to combine degrees, and get more hands-on experience through internships with some of Australia's best companies. If you want a business, economics or commerce degree that means more in the business world, take a look at the range of programs we offer.

Career options include: business journalist, economist, global business analyst, human resources manager, international relations manager, market analyst, political adviser.

Marketing and management

Marketing and management at Macquarie are all about changing perspectives and managing workplaces of the future. Our programs explore not only the theory behind marketing and management principles, but also allow you to gain practical skills in media-related technologies that can be applied in a marketing or management context. Taught by staff with solid industry experience, our programs will equip you to succeed in the dynamic marketing and management sphere.

Career options include: advertising or brand manager, broadcasting production manager, creative director, journalist, PR or corporate communications specialist, marketing executive, media buyer.

Our areas of study

Faculty of Human Sciences

Education and teaching

Educators shape the future, change destinies, enrich lives and empower individuals to realise their full potential. Our teacher education programs give you a broad world view and qualifications that enhance your employment opportunities in primary and secondary teaching and special education. Macquarie is a leader in early childhood teaching and research, with our world-renowned Mia Mia Child and Family Study Centre offering a unique range of learning and research opportunities for students.

Career options include: preschool or long-day care teacher, primary teacher, secondary teacher, trainer of adults, educational researcher.

Health professions

Macquarie hosts Australia's most technologically advanced private hospital on a university campus – Macquarie University Hospital – as well as the Australian School of Advanced Medicine and the Australian Hearing Hub, so you have access to the best expertise and facilities. Our postgraduate allied health programs include clinical audiology and physiotherapy.

Career options include: health and community manager or administrator, health program coordinator, health educator or advocate, health researcher, audiologist, speech pathologist, physiotherapist.

Linguistics, speech and hearing

Macquarie is ranked among the top 50 universities in the world for linguistics in the QS World University Rankings 2013. Our campus is home to the new Australian Hearing Hub, which offers you the unique opportunity to work alongside industry experts, providing an unrivalled learning experience. Our graduates help improve the lives of people with speech, hearing and language disorders.

Career options include: allied health specialists, including audiologist or speech pathologist, language professional, TESOL teacher, linguistics researcher.

Psychology

Macquarie is ranked among the top 50 institutions in the world for psychology.* Our first-class facilities include a state-of-the-art simulation centre, eight-camera motion capture laboratory, perception lab, neuropharmacology labs, clinical skills training centre and psychology clinics. We offer a broad, holistic, interdisciplinary approach to learning and thinking that better prepares you for life and your career. Our research helps thousands of people living with autism, dementia, dyslexia and schizophrenia.

Career options include: psychologist, health department researcher, social welfare officer, market researcher, human resources consultant.

Translating and interpreting

Macquarie offers one of the most comprehensive, established and respected programs in Australia in translation and interpreting. You can acquire the skills and knowledge to be a professional translator in community and commercial settings and make a career as a globally competitive language professional. We have the largest conference interpreting program of any Australian university.

Career options include: diplomat, government or business consultant, professional translator and interpreter, curriculum developer.

Australian School of Advanced Medicine

Medicine

The Australian School of Advanced Medicine (ASAM) provides post-fellowship, sub-specialty training in medicine and surgery as well as higher research degrees. ASAM is the first medical school in Australia to be linked to a private teaching hospital on a university campus. The school brings together world-class clinicians, researchers and medical educators to create an innovative training program with a focus on future trends in medicine. The school has Concentrations of Research Excellence (CORE) in Neuroscience, Vascular Science and Surgery.

Our competency-based, hands-on education programs enhance the skills of surgeons and physicians.

*2014 QS World University Rankings by Subject

Faculty of Science

Earth and environmental sciences

Environmental resource management is a key issue of our era and demand for top-quality environmental scientists is high. Our commitment to first-class interdisciplinary research has placed us at the forefront of earth and environmental science study, in Australia and internationally. We are home to many world-renowned researchers and academics, so at Macquarie you study with people who are using their knowledge to make an impact on today's environmental issues. Our degrees give you the skills to make practical, positive change in areas like conservation, resource management, sustainability, development and planning.

Career options include: environment resource manager, environmental consultant or policy maker, geologist, geophysicist, government, social or strategic planner, marine specialist, mining industry consultant, zoo or wildlife manager.

Engineering

Our engineering programs combine a strong research-based curriculum with practical skills acquisition and industry exposure. Our programs offer a flexible first year, providing you with a solid background in electronic, mechanical and software engineering before you choose a speciality according to your interests and career goals. We have working partnerships with many of the global high-tech companies neighbouring our campus, offering you access to valuable internships and work placements. We are an internationally accredited engineering school allowing you to practise professionally around the globe.

Career options include: business systems design manager, computer engineer, electronics engineer, mechanical engineer, mechatronic engineer, software engineer, telecommunications engineer, project or technology manager, robotics developer.

Information technology

The information technology field is dynamic and demand for highly skilled IT graduates has never been greater. Our degrees are developed in consultation with industry and satisfy the standard for the professional level of the Australian Computer Society. You can specialise in fields such business information systems, software technology solutions or web design. Our partnerships with many global high-tech companies neighbouring our campus provide opportunities for internships and work placements.

Career options include: business analyst, games designer, information technology consultant, programmer, solutions architect, systems analyst, systems development manager, web and digital solutions designer.

Medical sciences

Macquarie's multi-million dollar investment in health, which integrates education, research and clinical applications, has reinforced our position as a leader in health sciences. Our facilities for medical sciences study are considered some of the best on offer at a university in the Asia-Pacific region. We host Australia's most technologically advanced private hospital on a university campus – Macquarie University Hospital. Our resources and innovative approach are attracting some of the best students, researchers and health companies to Macquarie.

Career options include: biotechnologist, community development planner, chiropractor, drug discovery and development researcher, forensic scientist, genetic counsellor, health advocate or policy maker, histologist, medical researcher, pharmacologist.

Science

Macquarie is renowned for expertise in science fields as diverse as astronomy, biology, chemistry, microbiology and physics. Our interdisciplinary approach is a hallmark of all Macquarie science graduates and is highly valued by employers. It is one of the reasons we have strong ties to industry. Our teachers and researchers are recognised internationally, and our facilities, such as our digital science laboratories, are considered among the best in the Asia-Pacific region.

Career options include: astronomer or astrophysicist, biologist, chemist, biotechnology researcher, drug discovery researcher, defence industries consultant, mathematician, physicist, mining and geoexploration specialist, pharmaceutical sales or marketing specialist.

Design your own degree

Macquarie offers a range of interdisciplinary degrees which help you develop creative problem-solving skills, equip you with a global mindset, and give you skills employers seek. These are all things which will help you get a valuable head start on your career. At the core of our curriculum is flexibility of choice to give you the skills and knowledge to last a lifetime. Some degrees have prescribed programs of study while many others allow you to pick a major. Depending on your degree, you can choose a major to suit your interests, broaden your studies or to get industry-specific skills.

Choice of majors available for interdisciplinary degrees

Master of Business Administration	Terms 1, 2, 3 and 4	2 FTE*	\$35,000	083781A
Master of Management	Terms 1, 2, 3 and 4	2 FTE	\$30,000	083800C
Master of Social Entrepreneurship	Terms 1, 2, 3 and 4	2 FTE	\$26,040	083808F

Term 1: January, Term 2: April, Term 3: June, Term 4: September
FTE = Full-time equivalent years. [^] Australian dollars.

*The MBA is a 24 month full time program of study, however students may have the opportunity to fast-track the program and complete it earlier by studying a higher load.

For more information about any of these courses, please refer to the specific course details at courses.mq.edu.au/#InternationalStudents

English language requirements: All applicants for coursework studies at Macquarie University are required to provide evidence of proficiency in English. For a list of approved qualifications and special requirements for certain courses visit mq.edu.au/english-requirements
 Information is correct at time of publication but is subject to change without notice. The University has the right to alter the content or impose terms and conditions in relation to a program at any time.

"The MBA has given me the confidence to think big."

Rebecca Engel
 MGSM Alumna
 Head of Retention at
 National Australia Bank (Wealth)

The Macquarie Graduate School of Management (MGSM) is Sydney's leading business school and is ranked one of the top business schools in the world.*

Our MBA and postgraduate courses are AACSB accredited and recognised internationally for outstanding academic quality. MGSM graduates are highly regarded, with over 80 per cent of full-time students employed within three months of graduation.

MGSM's curriculum is grounded in industry and reality. You will have the opportunity to collaborate with leading Australian and multinational corporations on real business consulting projects, allowing you to develop your international work experience.

International students can also opt to do internships with some of the world's leading organisations. PwC, Google, LinkedIn, GE and Deloitte are among employers that sponsor MGSM interns.

MGSM enjoys relationships with universities around the world. Through exchange agreements with these universities, our students can study part of their program abroad.

 MACQUARIE GRADUATE
 SCHOOL OF MANAGEMENT

Higher degree research

Macquarie's outstanding international research reputation ensures that your research degree will be respected and valued across the globe.

New Master of Research

Our new Master of Research (MRes) degree is an excellent foundation for your PhD and a future career in research.

Consistent with the Bologna model, the two-year research training degree is the first of its kind to be offered by an Australian university. It is the main pathway to a Doctor of Philosophy (PhD) and Master of Philosophy (MPhil).

Professor Sakkie Pretorius, Deputy Vice-Chancellor – Research says: "Macquarie University's adoption of the new research training degree, the Master of Research, ensures our graduates have greater international recognition for their qualifications. Graduates of the Master of Research enjoy enhanced employment opportunities and pathways to further study overseas."

The degree is fully aligned with Asian, European and North American research training qualifications.

This research training pathway also facilitates Macquarie's substantial joint PhD program with leading international partners across the globe.

Higher degree research supervisors and rules

The research interests of potential supervisors for our higher degree research (HDR) program can be found on the Supervisor Register.

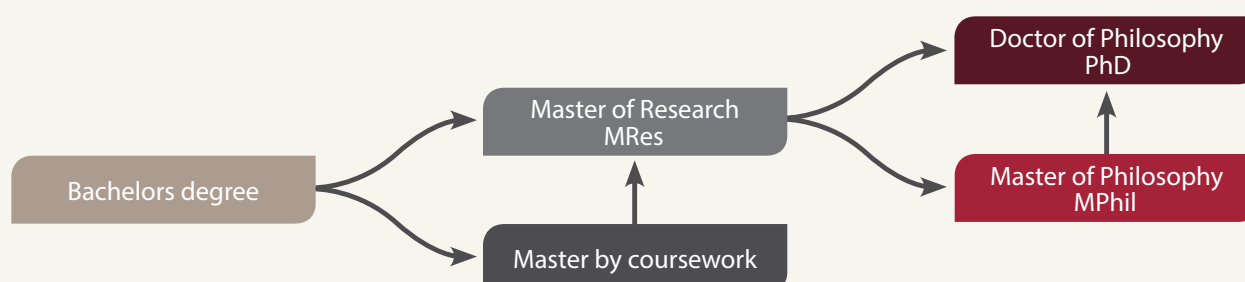

<https://mqsr.mq.edu.au/MQSR>

Rules for research degrees may be found in the Calendar of Governance, Legislation and Rules

universitycouncil.mq.edu.au/legislation.html

More specific information on the requirements for completing an HDR program and Macquarie's support structure can be found at hdr.mq.edu.au

Jointly supervised PhD programs

Macquarie participates in two modes of international co-enrolment – cotutelles and joint degrees – with leading research universities in Asia, Europe, the United Kingdom, United States and South America.

Cotutelle

A cotutelle arrangement allows you to enrol simultaneously for a PhD at Macquarie and one of our partner universities. You submit one thesis to both institutions for joint recognition, for which you may be awarded two testamurs: one from Macquarie University and the other from the partner institution.

Joint degree

A joint degree allows you to undertake research at Macquarie and one of our partner universities. Under this arrangement you will undertake a single joint thesis examination and be awarded a single testamur bearing the crests of both universities.

Partner universities

The University has had joint doctoral supervision agreements with 108 universities in 29 countries. We are proud to have high priority current research training partnerships with universities in China, Denmark, France, Germany, Sweden and the UK.

hdr.mq.edu.au/information_for/cotutelle_and_joint_phd_programs

“Macquarie has an excellent research team in the field I’m interested in, as well as a research laboratory with all the infrastructure required to do a great job.”

Roberta De Paula Martins

PhD student from Brazil. Completing a cotutelle PhD at Macquarie University and the Federal University of Santa Catarina.

English language requirements

Your English language proficiency and academic results will determine whether you are eligible for entry to Macquarie University's programs.

All students studying at Macquarie need to provide proof of English language proficiency. You have three options to demonstrate your proficiency.

Option 1

Hold an approved qualification

If you have completed senior secondary high school study or at least one year of full-time university study in one of the following countries, you will be deemed to have met the standard English language requirements that apply to most Macquarie courses.

The qualification must have been taught in English. The countries are:

Antigua and Barbuda	Fiji	Marshall Islands	St Lucia
Australia	Ghana	Mauritius	Swaziland
Bahamas	Great Britain	Namibia	Tanzania
Barbados	Grenada	New Zealand	The Gambia
Belize	Guyana	Nigeria	Tonga
Botswana	Jamaica	Papua New Guinea	Trinidad and Tobago
Canada (excluding Quebec)	Kenya	Sierra Leone	Uganda
Cook Islands	Kiribati	Singapore	United States of America
Dominica	Lesotho	Solomon Islands	Zambia
Federal States of Micronesia	Malawi	St Kitts and Nevis	

QUALIFICATION OR COUNTRY OF QUALIFYING STUDY	QUALIFICATION REQUIREMENTS
Denmark – upper secondary school	B level English – minimum grade of 9 A level English – minimum grade of 7
Finland	Completion of high school with grade of 8 in English unit
Germany	Minimum English score in Abitur (high school/two years) of 3.0 (grades 7–15) AND DAAD (5 Section option): minimum top two bands for each section OR DAAD (4 Section option): minimum top three bands for each section.
Netherlands VWO (pre-university education)	Overall score of at least 7 in English
Netherlands HAVO	Overall score of at least 7 in English (after at least one year of tertiary education)
Norway – upper secondary school	IEC – 4
Sweden – upper secondary school	Very Good (VG)
CPE (Cambridge English: Proficiency)	C Pass. CAE minimum overall score of 58–66
International Baccalaureate (IB)	Before May 2013: English A2 at higher level or A1 at standard or higher level May 2013 session and thereafter: English A Literature or English A Language and Literature at standard or higher level English B at Higher level with a grade of 4 or more English B at Standard level with a grade of 5 or more
GCE Advanced Level	C Pass in humanities subjects. These subjects are ancient history/classical studies, archaeology, business studies, communication studies, economics, English (English language/English literature), general studies, geography, government and politics, history, history of art, law, media studies (media is not a humanities subject), philosophy, religious studies, social policies, sociology, drama and theatre.
Hong Kong Advanced Level Examination (HKALE)	C Pass in use of English
Hong Kong Diploma of Secondary	Level 5 in English for all education courses or Level 4 in English for all other courses
STPM (Malaysia)	A grade level of C pass in 920 or B pass in 914

Option 2

Study English at Macquarie University English Language Centre

ENGLISH LANGUAGE CENTRE

By studying English at the Macquarie University English Language Centre (ELC), you will get the best possible preparation for your Macquarie degree.

The ELC provides discipline-specific, university entry English preparation programs, based on the academic requirements and subjects of your Macquarie degree. By tailoring English learning to your degree and chosen career, you can be more confident of success at university and in the workplace.

ELC graduates receive ongoing language support throughout their time at Macquarie. Typically ELC graduates achieve higher grade point averages (GPAs) in their first session at Macquarie, compared to students coming from other major English language pathways.

As an ELC student you will enjoy access to all of Macquarie's first-class facilities and vibrant campus life, making your transition to studying for a degree easier.

The ELC runs one of the largest International English Language Testing System (IELTS) test centres in Australia, and offers online and face-to-face IELTS test preparation courses.

Option 3

Complete an approved English language test

For most programs at Macquarie, the English language test results listed below will qualify you as proficient in English. Degrees with higher English language requirements are listed in this booklet.

IELTS Academic

Qualification requirements: Overall 6.5 Listening 6.0
Reading 6.0 Writing 6.0 Speaking 6.0

TOEFL iBT (internet-based test)

Qualification requirements: Overall 83 Listening 12
Reading 13 Writing 21 Speaking 18

TOEFL PBT (paper-based test)

Qualification requirements: Overall 570 Listening 53
Reading 52 Structure/Written Expression 59 TWE 4.5

Pearson Test of English Academic (PTE Academic)

Qualification requirements: Overall 64 Listening 57
Reading 57 Writing 57 Speaking 57

Cambridge English: Advanced (CAE)

Qualification requirements: Overall score of 58–66

Occupational English Test (OET)

Qualification requirements: Grade B or above for all four components (Listening, Reading, Writing and Speaking)

Undergraduate academic requirements

There are academic entry requirements for each program. To be eligible to apply to Macquarie University for an undergraduate program, you must have one of the following:

- a recognised secondary (high school) qualification
- a recognised university foundation course
- a recognised two or three-year diploma
- at least one year of a university degree from a recognised institution.

Recognised qualifications

For secondary (high school) qualifications, see the recognised secondary qualifications list on page 52.

Macquarie University also recognises:

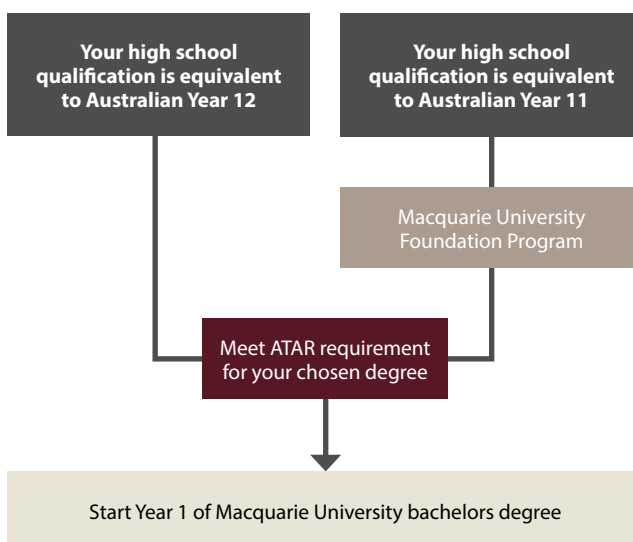

- foundation programs offered by most Australian universities, as well as some approved international programs
- diplomas that are equivalent to Australian Diploma or Advanced Diploma levels
- degree programs that are equivalent to Australian degree levels (bachelor or master).

If your qualification does not fit into any of the above categories, or if you are unsure, you may still apply for entry and your application will be assessed by our admissions team.

Determine the mark you need

Direct entry to our undergraduate programs is determined by an Australian Tertiary Admission Rank (ATAR). Each degree has a specific minimum ATAR requirement, which you will find listed on our online course finder. Use the table opposite to calculate your ATAR equivalency score.

Your path to Macquarie

ATAR CONVERSION TABLE FOR INTERNATIONAL STUDENTS

ATAR* 2014	75	80	85	90	95
Foundation scores: Macquarie University, UNSW Foundation and University of Sydney Foundation (Taylor's College)	6.7	6.9	7.3	7.7	8.0

India: All India Senior School Certificate	60	65	70	72.5	75
Malaysia: STPM (3 Subjects)	8	11	14	16.5	19
Malaysia: Malaysian Unified Examination Certificate	21	20	17	13	9
Singapore: Singapore A Levels	12.5	14.5	16.5	15.0	20.0
South Africa: Matriculation	57	59	64	70	76
Thailand: Certificate of Secondary Education (Mathayom 6) GPA on 4 point scale	2.4	2.6	3.0	3.3	3.7
United States: SAT	1490	1560	1660	1790	1930
Vietnam: Approved Vietnamese High School Average GPA from grades 10, 11 and 12	8.0	8.0	8.5	8.75	9.0

*The ATAR equivalent requirements may vary across Macquarie courses, so these figures are indicative. The most up-to-date requirements are available on the Macquarie website. Requirements are correct at time of calculation. Macquarie reserves the right to change the entry requirements.

Recognised secondary qualifications by country for undergraduate entry

Country	Qualification
Argentina	Argentine Bachillerato.* Completion of a recognised high school qualification/pre-tertiary or foundation program OR completion of the first year of a recognised university bachelors degree
Bangladesh	Completion of the first year of a 4-year bachelor degree at a recognised University OR a completed 2–3 year bachelors degree OR Bangladesh HSC*
Brazil	Brazilian Secondary School Leaving Certificate.* Completion of a recognised high school qualification/pre-tertiary or foundation program OR completion of the first year of a recognised university bachelors degree
Canada	Alberta High School Diploma, British Columbia Senior Secondary School Graduation Diploma, Manitoba High School Graduation Diploma, New Brunswick High School Graduation Diploma, Newfoundland Provincial High School Graduation Certificate, Nova Scotia High School Completion Certificate, Ontario Secondary School Diploma, Quebec Diploma of Collegial Studies
Chile	Licencia de Educacion Media, Secundario.* Completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program
China	Gao Kao – See mq.edu.au/undergrad-academic-requirements Completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program
Colombia	Colombian Bachillerato.* Completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program
Ecuador	Ecuadorian Bachillerato.* Completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program
France	Baccalaureate – see ATAR conversion table page 51
Germany	Abitur – see ATAR conversion table page 51
Hong Kong	HKDSE – see ATAR conversion table page 51
India	All India Senior School Certificate – see ATAR conversion table page 51
Indonesia	Completion of a recognised high school qualification/pre-tertiary or foundation program OR Completion of the first year of a recognised university bachelors degree*
Iran	Iranian High School Diploma/Iran Pre-University certificate* OR completion of a recognised high school qualification/pre-tertiary or foundation program. Completion of the first year of a recognised university bachelors degree*
Israel	Te'udat Bagrut* Completion of a recognised high school qualification/pre-tertiary or foundation program OR completion of the first year of a recognised university bachelors degree*
Jordan	Middle Eastern Secondary School Leaving Certificate (Tawjihi)*
Kenya	Kenyan Certificate of Higher Education.* Completion of a recognised high school qualification/pre-tertiary or foundation program OR completion of the first year of a recognised university bachelors degree*
Kuwait	Completion of the first year of a recognised university bachelors degree. Middle Eastern Secondary School Leaving Certificate (Shahadat-al-thanawia-al-a'ama)* OR completion of a recognised high school qualification/pre-tertiary or foundation program*
Malaysia	United Examination Certificate OR Sijil Tinggi Pelajaran Malaysia (STPM), Matrikulasi – see ATAR conversion table page 51
Mauritius	GCE A Levels – see ATAR conversion table page 51
Mexico	Mexican Bachillerato.* Completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program*
Myanmar	Myanmar Basic School Education. Completion of a recognised high school qualification/pre-tertiary or foundation program OR completion of the first year of a recognised university bachelors degree*

*Selected national and high school qualifications are eligible for assessment on application for entry to Macquarie University. As a guide the minimum score should be greater than 90 per cent or 3.6 out of 4 GPA equivalent.

Country	Qualification
Nepal	Nepalese proficiency certificate/ Nepalese higher secondary certificate* OR completion of a recognised high school qualification/pre-tertiary or foundation program OR completion of the first year of a recognised university bachelors degree*
Nigeria	GCE A Levels – see ATAR conversion table page 51
Oman	Completion of the first year of a recognised university bachelors degree OR Middle Eastern Secondary School Leaving Certificate (Thanawiya amma)* OR completion of a recognised high school qualification/pre-tertiary or foundation program*
Pakistan	Completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program*
Peru	Peruvian Official Certificate of Secondary Education* OR completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program*
Philippines	Philippines National Secondary Aptitude Test*. Completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program*
Russia	Certificate of Completed Secondary Education*. Completion of the first year of a recognised university bachelors degree OR completion of a recognised high school qualification/pre-tertiary or foundation program*
Saudi Arabia	Completion of the first year of a recognised university bachelors degree OR Middle Eastern Secondary School Leaving Certificate (Tawjihyah)* OR completion of a recognised high school qualification/pre-tertiary or foundation program*
South Africa	National Senior Certificate or Matriculation Certificate of the Joint Matriculation Board
Singapore	Singapore A levels – see ATAR conversion table page 51
Sri Lanka	Sri Lankan GCE A Levels – see ATAR conversion table page 51
Sweden	Swedish Secondary School Certificate
Taiwan	Senior High School*
Tanzania	Advanced Certificate of Secondary Education
Thailand	Certificate of Secondary Education Mathayom 6. Completion of a recognised high school qualification/pre-tertiary or foundation program OR completion of the first year of a recognised university bachelors degree*

**Selected national and high school qualifications are eligible for assessment on application for entry to Macquarie University. As a guide the minimum score should be greater than 90 per cent or 3.6 out of 4 GPA equivalent.*

How much will your investment cost?

Tuition fees

Tuition fees for international students at Macquarie University are set on a per credit-point basis, with your credit point fee depending on the degree or program in which you are enrolled. So students can calculate their likely tuition fees, Macquarie publishes an estimated annual fee for each program based on a full-time study load – usually 16 credit points per academic session or 32 points per year. See the course tables starting on page 36 or view our online course guide for tuition fees.

In most cases, you need to pay the commencement fee, which covers your first academic session, at the time you accept your offer of study. Tuition fees for subsequent academic sessions should be paid by the due date in each session.

We review and may increase our per-credit point fees each year. It is important to realise that you need to pay the fee for your academic year. You may also be subject to other fees and charges.

Cost of living

Your cost of living and studying in Australia will depend on the lifestyle you choose to lead. The information below will help you get an idea of how much you need to budget for expenses.

Australian government regulations require student visa applicants to have access to sufficient funds to cover their expenses for the first one or two years in Australia.

The expenses include:

- minimum of \$18,610 a year to cover living costs for a single student visa applicant, with additional funds for dependant partners or students
- return airfare to Australia for student plus additional return air fares for any dependants
- Overseas Student Health Cover (OSHC) for yourself and any dependants who travel with you.

Indicative cost of living for a single student

Expenses	Weekly cost	Notes
Accommodation	\$70 to more than \$400 per week	Costs can vary depending on the type of accommodation you choose.
Groceries and eating out	\$80 to \$200 per week	All meals can be included in university college fees. Dinner and breakfast are often included in homestays.
Gas and electricity	\$60 to \$100 per week	Cost depends on whether you are in shared or solo accommodation.
Phone and internet	\$20 to \$50 per week	There is free, fast, unlimited wi-fi internet access on campus. wi-fi is also available in many cafes and public places. Choose a broadband subscription plan to suit your needs.
Public transport	\$10 to \$50 per week	International students may be eligible for reduced price train, bus or ferry tickets.
Car (after purchase)	\$150 to \$250 per week	Costs for petrol, car insurance, registration and maintenance after purchase of a car.
Entertainment	\$50 to \$100 per week	Depends on lifestyle.
Insurance	\$437 annual cost of OSHC for a single person	You need to purchase OSHC and you may also want to take out private insurance.

Source: studyinaustralia.gov.au/global/live-in-australia

Overseas Student Health Cover

Overseas Student Health Cover (OSHC) is compulsory for all students residing in Australia on a student visa. This cover helps pay for any medical or hospital care you or your dependants may need while you are in Australia.

Macquarie arranges a special OSHC package price with its preferred provider, Allianz Global Assistance OSHC, but you are free to choose your own provider. In 2014, OSHC cover for a single person for a 12-month period was approximately \$437. Discounts apply for longer periods and for additional visa holders in a family.

Working while you study

Student visa holders in Australia are entitled to work up to 40 hours per fortnight while their course is in session, and unlimited hours during scheduled course breaks. Check the student visa work conditions at the Department of Immigration and Border Protection website.

immi.gov.au

Important dates 2015

Session 1	
Compulsory orientation and enrolment for new international students	16–20 February
Classes commence	23 February
Mid-session break	3–19 April
Exams commence	9 June

Session 2	
Compulsory orientation and enrolment for new international students	20–24 July
Classes commence	27 July
Mid-session break	14–27 September
Exams commence	9 November

mq.edu.au/international-dates

How to apply

Take these five steps to apply for admission to a program at Macquarie University.

Step 1

Choose a Macquarie program

Find a degree that suits your interests and career goals. Visit our online course finder for international students to see the full structure, major and units of study of the particular program. courses.mq.edu.au

Step 2

Check that you meet the entry requirements

Each program at Macquarie has specific academic and English language requirements that you need to fulfil in order to be considered for entry. The requirements for each program are detailed in our online course finder.

Step 3

Submit your application

Apply online using our secure Online Application Manager admissions.mq.edu.au

By applying online, your application will be prioritised. You can save and update your application until you are ready to submit it to us.

OR

Download an international student application form from our website, fill it in and post it to us.

OR

Apply to Macquarie via an authorised representative in your home country or at one of our regular international events.

Step 4

Accept your offer

If you are qualified for entry, you will receive an offer of study by email. Carefully read all the information in your offer letter, which will include the conditions you need to be aware of before accepting your offer, as well as the documentation required.

Fees

Your offer letter will provide details of the tuition fees that need to be paid when you accept your offer. The tuition fees for your first academic session are paid in the form of a commencement fee. Your compulsory Overseas Student Health Cover (OSHC) fees are also payable at this time.

Student visa

Once you have signed and returned the relevant documents in your offer letter and have paid your commencement and OSHC fees, Macquarie will issue you with an electronic Confirmation of Enrolment (eCoE). Use your eCoE to apply for a student visa via an Australian Embassy, High Commission or the Department of Immigration and Border Protection.

To find out more about student visa conditions and application procedures, visit the Australian Department of Immigration and Border Protection website immi.gov.au

Step 5

Prepare for your arrival at Macquarie

Compulsory orientation and enrolment sessions are usually held in the week before classes begin. It is essential that you arrive in Australia in time to attend these sessions.

A pre-departure checklist is available on our website to remind you of the things you will need to organise before coming to Australia. Visit mq.edu.au/travel-checklist

FAQs

How can I find out what I'll study in my Macquarie degree?

Head online to courses.mq.edu.au The "What you will study" tab on each degree page will show you all the required units (subjects) you will need to complete, as well as any elective units you can choose from.

Can I speak to a current student or academic staff member?

Head to our international students Facebook page – facebook.com/mqintl – to connect with current students or ask questions about Macquarie or life in Sydney. You can also submit a question to our dedicated team of student recruitment assistants. These are current Macquarie international students trained to give you first-hand advice and assistance.

What if I do not meet the entry requirements?

Find out more about our Foundation Program pathways at foundationstudies.mq.edu.au. If you need additional English study before entering a Macquarie program, you can request a packaged Offer of Study. Packaged offers include an English language program at Macquarie University English Language Centre. Once you successfully complete this English program, you can start your Macquarie degree study without the need to sit a further IELTS test.

Can I get credit for my previous studies?

If you have studied at another tertiary institution, you may be eligible for recognition of prior learning. This will be awarded in the form of credit points towards your Macquarie program. To request recognition of prior learning or a credit transfer from another institution, you will need to provide documentary evidence of previous study when you apply.

How do I apply if I am completing high school in Australia or New Zealand?

If you are currently completing Australian Year 12, the International Baccalaureate in Australia or the New Zealand National Certificate of Educational Achievement (NCEA) Level 3, you should apply to Macquarie University through the Universities Admissions Centre (UAC)

Are there special rules for students under 18?

If you will be under 18 when you start your study at Macquarie, you will need to have appropriate accommodation, support and general welfare arrangements in place before the Australian Government can grant you a student visa. Care and accommodation can be provided by a parent, a suitable nominated relative or the University (represented by Macquarie International).

When should I apply?

Remember that places are limited in all programs, especially popular degrees. It is a good idea to apply at least two to three months before your first session begins, in order to avoid disappointment and to give you enough time to organise your student visa.
